June 2018

I would like to appraise Mr Kevin Chua, coach for TK Track and Field from 2016 to current date, for his commendable performance thus far.

Mr Chua has been value-adding the results for the track and field team since he joined TK. Through his dedication and innovative coaching style, more athletes and relay teams have qualified for the Semi-finals and Finals. This year, our C Div Boys team did us proud by qualifying for Finals for 400m, 400m Hurdles, 100m, 4x100m relay and 4x400m relay and achieved two bronze medals for National Track and Field Championships 2018.

I would like to affirm him on his good practices in the following areas:

Character Development

Mr Chua is able to motivate the athletes both intrinsically and extrinsically. He is mindful of the desires and motivational levels of the athletes and is able to get his message across to them using appropriate and nurturing language and tone. He has also managed to change the mind-set of our athletes when it comes to identifying the events they are most able to do well in hence building their confidence in the CCA.

Training Programme

Innovative and explorative, Mr Chua is willing to try out new methods and has managed to develop a training programme that is tailored for the athletes in TK. Thus far the programme is working well for the team to be increasing their performance.

Additionally, Mr Chua is a good team player who is able to build a positive working relationships with the teachers in-charge of the CCA. He provides constructive feedback and suggestions while working within the constraints faced by school.

With his positive attributes, I believe Mr Chua will value add to any organisation he is a part of.

Yours sincerely,

Karima Syahirah
Track and Field Overall Teacher IC
