

We were introduced to Total Kinetics Sports through Coach Kevin who is also our son's school coach.

His talents, commitments and mentorship has instilled a great interest in the sport for our son. Thus, we further enrolled him to join the club to improve his overall performance.

Through the course of our son's development with the club, we realised that Coach Kevin's **professionalism and experience had continued to help motivate and bring out the best** of his students-athletes to reach beyond personal best.

He is also highly regarded by our school teachers.

As such, we strongly recommend Total Kinetics Sports to those seeking athletics training.

May, Mother of Ihsan
